Test Case Plan

Group members	Dylan Burton, Sara Ross, Bobby Khleang, George Williams, Omaid Ghafoori

Test Case ID	**TC03 – Invalid Weight**
Test Objective	**Verify that the system rejects an invalid weight value according to rules (weight > 0).**
Preconditions	• User is registered. • User is on the "Medical Information" screen. • Application/server is available.
Test steps	1. Navigate to the "Medical Information" screen. 2. Locate the input fields for Weight, Height, and Age. 3. Enter **0** into the Weight field. 4. Enter valid values for Height. 5. Enter a valid Age. 6. Click **Save**.
Input Values	• Weight: 0 • Height: 5 ft 5 in • Age: 20
Expected results	• The system displays the error message: **"Invalid weight."** • No information is saved. • User remains on the form to correct the input.
